

# Faculty of Education – University of Maiduguri

The **Borno State Education Trust Fund (ETF)** continues to support higher education institutions through key infrastructure and learning facility upgrades. At the **Faculty of Education, University of Maiduguri**, ETF implemented targeted interventions to improve the quality of teacher training and campus environment.

---

## Project Scope

### a. Equipment Installation

- ☒ **Installed essential teaching and learning equipment** at the **Micro Teaching Clinic**, enhancing the faculty's capacity for practical teacher training.

### b. Environmental Improvement

- ☒ **Completed full interlocking** of the **Faculty premises**, providing a clean, organized, and accessible campus layout.
- 

## Project Impact

- Boosted hands-on teaching experience for education students
  - Enhanced the overall learning and working environment
  - Improved mobility and aesthetics across the faculty's premises
  - Contributed to the long-term development of quality teacher education in Borno State
- 

## Project Gallery

*Add images of the micro teaching clinic, interlocked walkways, and general faculty areas.*

### Project Overview

- **Location:** Faculty of Education, University of Maiduguri
