

Construction of a 2-Storey Classroom Block at Government Day Secondary School, Maiduguri

As part of its strategic mission to enhance learning environments across Borno State, the **Borno State Education Trust Fund (ETF)** successfully constructed a **2-storey building consisting of 15 modern classrooms** at **Government Day Secondary School, Maiduguri**.

This project was executed to reduce classroom congestion, accommodate the growing student population, and support the delivery of quality education in a safe and conducive setting.

Project Highlights:

- 2-storey building structure
- 15 spacious classrooms
- Modern architectural design
- Quality construction materials for durability
- Enhanced learning space for hundreds of students

This intervention aligns with ETF's mandate to support educational infrastructure development and promote inclusive learning opportunities in Borno State.

Project Overview

- **✓ Location:** Government Day Secondary School, Maiduguri
